

Bangerter Highway; 10400 South to I-15

Project Description: **Study**

This project has concluded an Environmental Study to determine the impacts of re-striping Bangerter Highway from two lanes to three lanes in each direction between 10400 South and I-15. The study is complete and re-striping will occur when weather allows. Noise walls will be installed during 2006 in areas determined by the study.

Total Project Budget: **Approx. \$1.5 million (Commission approved amount)**

Anticipated Schedule: **This project is currently projected for construction in 2006.**

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
